

As a **dynamic and innovative industry group**, we believe our role is to encourage women to enter the innovation and technology industries, to then retain women in these industries and - importantly - enable these women to achieve their full potential throughout their careers. To do this we are dependent on - and thankful for - the support of the organisations who, through corporate membership, assist us in **developing and delivering a range of initiatives** that not only help our current members, but those women who are considering entering these exciting and vibrant industries.

Bronze **\$150** **annual in-kind** **support**

We understand that many of our supporters are small and medium sized businesses who want to support WIT but would prefer to offer in-kind support. Our bronze membership package offers this for no cost with the exception of in-kind services that will benefit WIT and its members. Bronze level includes two full WIT transferrable memberships (valued at \$120) with support (such as professional services) as negotiated with the WIT Board to the value of at least \$150 per annum, and in addition includes access to WIT's general corporate benefits. General Bronze membership is also available at \$150 per annum.

Silver **\$300** **annual fee**

WIT's silver corporate membership package focuses on organisations that see benefit in assisting, developing and educating young women in their chosen fields of technology, innovation, design, engineering and other non-traditional professions. Silver membership offers five full transferable WIT memberships (valued at \$300) along with the option for sole sponsorship of one of our highly successful Mentoring Program events, providing assistance such as catering, materials, venue hire or guest speakers. Transferable memberships can be offered to students, staff and clients and offers a great 'value-add' to silver membership, along with WIT's general corporate member benefits.

Gold **\$600** **annual fee**

As a dynamic industry group with a primarily female membership base, WIT offers corporate organisations direct access to women of influence and position within a range of emerging and developing industries in South Australia, from electronics to defence and ICT. Gold corporate membership offers ten full transferable WIT memberships (valued at \$600) as well as sole sponsorship rights to one of our varied events throughout the year allowing targeted marketing and promotional opportunities.

General Benefits **available to** **all corporate** **members**

- Organisational profile and logo on the WIT website
- Logo included on support-specific collateral material, including brochures, menus, programs as required
- Opportunity to contribute to regular newsletters and other WIT communications
- Regular networking and promotional opportunities at WIT events
- Discounted events with affiliate organisations.
